

BIG GAIN IN MINES' OUTPUT

Mines of New Mexico Produce More Than \$19,000,000 in Year.

Washington, D. C., June 24.—The output of New Mexico mines in 1915, as reported by the United States geological survey, had a value of more than \$19,000,000.

The detailed figures reported by Charles W. Henderson, of the Denver office of the survey, give the production as \$1,461,995 in gold, 2,006,321 ounces of silver, 16,788,349 pounds of copper, 542,781 pounds of lead, and 2,694,964 pounds of zinc (in terms of spelter and zinc in zinc oxide).

These figures show an increase of \$283,509 in gold, 228,086 ounces of silver, 17,480,441 pounds of copper, 2,778,729 pounds of lead, and 7,090,572 pounds of zinc. The value of the metals, except silver, was higher than in 1914, the total being \$19,279,268, against \$17,919,532 in 1914, an increase of \$1,359,736.

A dollar saved by moving goods produced there is a dollar thrown at your neighbor's birds.

SHIPMENTS TO MEXICO HALTED

All Freight Intended for Mexico Will Be Turned Back.

Washington, D. C., June 24.—Customs officials along the Mexican border have been ordered to hold up freight shipments into Mexico and to advise the railroads to keep their rolling stock on the American side of the line.

ACCEPT CALL TO JOIN IN EL PASO "PEACE CONFERENCE"

New York, June 24.—Frank T. Walsh, of Kansas City; Modesto U. Rollan, Yucatan engineer with offices in New York and Luis Manuel Rojas, Mexican newspaper man and director of the national library in Mexico City, and Dr. Atl, another Mexican City editor, have accepted the invitation of the American Union Against Militarism to join William Jennings Bryan and Dr. David Starr Jordan in an unofficial "peace conference" in El Paso. It was stated that the four men, who had accepted would leave at once for the border.

Efforts made by the union to locate Mr. Bryan and Dr. Jordan have been unsuccessful.

ARIZONA OFFICERS SEARCH FOR 7 MEXICAN AGITATORS

Phoenix, Ariz., June 24.—Special agents of the department of justice, U. S. marshal Joe Dillon and his deputies are searching for seven agitators who headed for Arizona mining camps to recruit for the Carranza army and stir up trouble generally.

All sheriffs in the state are warned to be on the lookout for them. Governor Hunt is at Nogales today conferring with citizens relative to declaring martial law there.

Nothing May Avert Warfare.

Grave fears were expressed in official circles today that not even diplomatic representations from Mexico City can prevent open hostilities between the United States and Mexico.

In preparation for early development of serious future technical barriers had been removed to allow national guard units from all over the country to be dispatched to the border as soon as each is ready.

Secretary Baker had issued orders urging extreme haste, and final action was assured by congress today to allow president Wilson to draft immediately for service either in or out of the United States all national guardsmen who subscribe to the new oath. The Ray resolution containing this authorization, adopted by the house Friday, was before the senate today with virtual assurance that it would be approved.

Evidence now available from American sources seems to show that in both the Mazatlan and Carrizal clashes Carranza authorities precipitated the fighting. At Carrizal, it appears the assault was treacherous and without warning.

Rate of Commander Unknown.

Dispatch from Gen. Carranza, transmitted by Gen. Fanning, said none of the 11 rescued troops knew what had been the fate of their commander, and that their stories were so vague that it was impossible to get a clear idea of what had happened. The message referred to several troops returning "by another route," but officials thought it meant some of the 11 picked up by the relief column. Forty of the officers and men are unaccounted for.

TROOPS NEAR OJO CALIENTE MAY BE CARRIZAL SURVIVORS

Army officers here believe that the column bound for Ojo Caliente which Gen. Trevino has threatened to attack, probably is composed of soldiers surviving the Carrizal battle.

Ojo Caliente is about 40 miles southwest of Villa Ahumada.

San Antonio is 10 miles southeast of Nacimiento and the mission of the column proceeding in that direction is not known here, unless it be to search for bandits.

Gen. Huerta's Automobile Stopped at Santa Fe Bridge

Gen. Gabriel Gaviro's big Protos automobile, which was used by the former Juarez commander while in Juarez, was detained at the international bridge Saturday at noon by U. S. custom officers in the belief that the car had been used by the revolutionists.

The big Protos is said to have been the one used by Gen. Huerta while he was provisional president of Mexico and carried the Mexican coat of arms on the front of the radiator. The car carried license number 4510. It was being driven to Juarez when detained.

RED CROSS TO DISTRIBUTE EXTRA CLOTHING TO TROOPS

Hundreds of garments are now ready for distribution among the soldiers on border patrol, and the depot for receiving and distributing packages for the boys will be established in El Paso as soon as the military authorities have designated a location which would best suit them. The work will be done under the supervision of the local Red Cross officials, with the assistance of the military authorities.

"We have our authority from the national body," said Dr. Ida E. Bishop Saturday morning. "In compliance with instructions, I appointed a committee of Dr. Hugh Crouse, chairman; Dr. Paul Gallacher and Dr. H. T. Sanford. The duties of this committee will be defined by the national organization. As soon as Gen. Bell decides upon a location, we will open the El Paso headquarters. Reports are being received and close watch kept daily on Gen. Felipe Angeles, Gen. Salvador Alvarado, Gen. Emilio Aguilar, Gen. Francisco Castro and all of the other generals and commanders in El Paso.

FIXES RATES FOR WAR INSURANCE RISKS IN TEXAS

Austin, Texas, June 24.—The state fire insurance commission today held in a ruling to all insurance companies doing business in Texas that risks and liabilities incidental to disturbed war conditions, brought about by the Mexican situation, may be assumed by the companies, provided the charge for the assumption of this liability is made at the rate of three percent per annum in cities and towns where the key rate is 40 or less, and four percent where the key rate is 41 or over.

POPE BENEDICT TRIES TO AVERT U. S.-MEXICO WAR

London, Eng., June 24.—A wireless dispatch from Rome says that pope Benedict has appealed to president Wilson and Gen. Carranza to use their earnest endeavors to avert war.

CANANEA THINKS CONCRETE RAILS FOR MOTOR CARS

Tucumcari Man to Build Road From Tucumcari to Clovis Over Plains.

A system of concrete rails for the construction of automobile highways has been invented by James F. O'Rourke of Tucumcari. Mr. O'Rourke is a conductor on the El Paso & Southwestern system, and formerly ran into El Paso.

He is here now attending the conference of the Order of Railroad Conductors, with reference to the demand for more pay, which is being made by trainmen and engineers.

Three rails are to be used in this system of building automobile highways. The total width of road required is 12 feet, four inches. The middle rail is 20 inches in width, flat, and about five inches in depth. The inner wheels of the automobiles will run on this middle rail. The outside rails are 12 inches in width, six to eight inches in depth, and grooved or cupped, to hold secure the outer wheels of the cars. The clearance between the rails passing in opposite directions will be 18 inches.

Only 4-1/2 inches of concrete.

Mr. O'Rourke claims that all the advantages of a great automobile highway of concrete are to be had with the construction of only four and one-half inches of concrete laid to a depth of eight inches. Application for a patent has been made and favorable report from the application has been received.

Arrangements are being made now to build a road of this kind between Tucumcari and Clovis, a distance of 88 miles. Mr. O'Rourke says he has received assurances that he will be able to secure the capital without going outside of Tucumcari, and some preliminary arrangements have been made looking to the securing of sites for depots and stops in the terminals. A regular freight and passenger service, it is only \$25,000. The running time between Tucumcari and Clovis will be less than four hours, which is approximately ten hours under the present train schedules.

The people on ranches between Tucumcari and Clovis are already figuring on shipping their produce to El Paso, said Mr. O'Rourke. "We will have cars out of both terminals both morning and evening, and the shipper can put their produce into El Paso on the morning of the second day. Through the plains country we will get a big lot of wheat to haul. Many of the wheat growers are now 25 and 30 miles from a railroad, and are paying 25 cents a bushel to get their wheat hauled. On account of the saving in time, we hope to get the cost for carrying the mail to cars other than our own, will be one cent a mile. We will make very low freight and passenger rates."

LAST FIVE AMERICANS LEAVE PARALL FOR BORDER

Parall is now entirely deserted by Americans. The five American mining men who have been connected with the Carrizal fighting and mining company left there Friday for the border and are expected to arrive here Sunday.

The men were not ordered to leave until they were ordered to come out by the officials of the company for fear some irresponsible persons might attack them.

Everything in the Parra district is reported to be quiet and the mines and mills are running full time in charge of the Mexican officials of the companies.

EAST TEXANS ON WAY TO JOIN NEW MEXICO GUARD

Charles R. Quinn, of Bush, Tex., passed through El Paso Friday afternoon, en route to Columbus, in charge of 45 young men of east Texas, to be mustered into the New Mexico national guard, now on border patrol.

Dr. P. R. Quinn, of El Paso, who is a brother of the Bush man, said that the men were doing very well. The adj. Gen. Herling, of New Mexico, Mr. Quinn is to receive a commission as captain of the New Mexico national guard, Mr. Quinn said. The party left at 2:45 for Columbus.

CANAL ZONE REGIMENTS ARE READY FOR SERVICE

Panama, June 24.—The United States troops stationed in the canal zone, army officers here declare, are well fitted for possible service in Mexico. The various units are at full war strength. It is believed that the canal regiments, in the event of hostilities, may be exchanged for militia.

Sends \$10 Check For Little Newsboy Who Broke Arm

Because her dead son was always interested in newsboys, their affairs and troubles, Mrs. Rue Hines has sent a check for \$10 to The Herald for little August Suky, the newsboy who was pinned from a stool in the carrier room of The Herald last Tuesday afternoon and had his arm broken.

Mrs. Hines was in Amarillo, Texas, en route east when she read of the little boy's accident and learned that he was the sole support of his mother. Her heart was moved and she mailed a check at once to help the little fellow until he could sell papers again.

Each Christmas Mrs. Hines arranges a dinner for newsboys as a memorial to her dead son, Rue Hines, and all of the newsboys of the city are her guests at a big feed with presents for everyone on the side.

FUNERAL OF H. F. NAGLE TO BE HELD ON SUNDAY

Funeral services for H. F. Nagle, who was killed on East Overland street last Thursday night, will be held Sunday afternoon at 3 o'clock at the church of the Commemorative Congregation, at Myrtle and Campbell streets. Interment will be made in Concordia cemetery.

CONCRETE RAILS FOR MOTOR CARS

Tucumcari Man to Build Road From Tucumcari to Clovis Over Plains.

A system of concrete rails for the construction of automobile highways has been invented by James F. O'Rourke of Tucumcari. Mr. O'Rourke is a conductor on the El Paso & Southwestern system, and formerly ran into El Paso.

He is here now attending the conference of the Order of Railroad Conductors, with reference to the demand for more pay, which is being made by trainmen and engineers.

Three rails are to be used in this system of building automobile highways. The total width of road required is 12 feet, four inches. The middle rail is 20 inches in width, flat, and about five inches in depth. The inner wheels of the automobiles will run on this middle rail. The outside rails are 12 inches in width, six to eight inches in depth, and grooved or cupped, to hold secure the outer wheels of the cars. The clearance between the rails passing in opposite directions will be 18 inches.

Only 4-1/2 inches of concrete.

Mr. O'Rourke claims that all the advantages of a great automobile highway of concrete are to be had with the construction of only four and one-half inches of concrete laid to a depth of eight inches. Application for a patent has been made and favorable report from the application has been received.

Arrangements are being made now to build a road of this kind between Tucumcari and Clovis, a distance of 88 miles. Mr. O'Rourke says he has received assurances that he will be able to secure the capital without going outside of Tucumcari, and some preliminary arrangements have been made looking to the securing of sites for depots and stops in the terminals. A regular freight and passenger service, it is only \$25,000. The running time between Tucumcari and Clovis will be less than four hours, which is approximately ten hours under the present train schedules.

The people on ranches between Tucumcari and Clovis are already figuring on shipping their produce to El Paso, said Mr. O'Rourke. "We will have cars out of both terminals both morning and evening, and the shipper can put their produce into El Paso on the morning of the second day. Through the plains country we will get a big lot of wheat to haul. Many of the wheat growers are now 25 and 30 miles from a railroad, and are paying 25 cents a bushel to get their wheat hauled. On account of the saving in time, we hope to get the cost for carrying the mail to cars other than our own, will be one cent a mile. We will make very low freight and passenger rates."

SWINDLING CHARGE DISMISSED. ITALIAN CONTINUES TO BE HELD

The charge of swindling brought against A. Troiano, an Italian, was dismissed by district attorney W. W. Bricker Saturday morning, in habeas corpus proceedings instituted by Troiano to secure his release from the county jail, where he had been held for eight months.

Troiano, however, failed to secure his release, as he was held on information from California.

Troiano was indicted on the charge of having issued a check on the Bank of Lower California. The check, amounting to \$100, was cashed by the El Paso Bank & Trust company. It was alleged that there was no such bank.

Troiano, at the time of securing the money on his check, was negotiating for a contract with the Italian government for supplying livestock, it is stated.

NEGRO AND WHITE MAN BEAT SYRIAN AND LEAVE HIM BOUND

Set upon by a negro and a white man while walking along the railroad track two miles east of Port Hancock and robbed \$25; after being severely beaten, Michael Hodge, a Syrian, appeared at the emergency hospital Saturday for medical treatment.

Hodge's face was badly beaten and his head was cut in several places where he was cut by a rock in the hands of the two men.

The two men, after taking his money, bound him and left him near the railway track, where he was found by a number of section workmen and freed.

E. P. & S. W. RAILROADMEN TO TAKE VOTE ON STRIKE

The organizations of the conductors and trainmen and the locomotive engineers and firemen, from the entire El Paso & Southwestern system, in all about 50 men, have come to El Paso for the purpose of considering and discussing the question of the demands for higher wages.

Following separate meetings of the several organizations, a federal meeting was held Friday night.

The representatives of the several orders have been instructed to take a vote on the strike, on their respective divisions, and as to how the poll is to be made.

E. C. FORNEY IS ELECTED HEAD OF ODD FELLOWS

Mount Franklin encampment No. 106, I. O. O. F., Friday night, held the annual election of officers, with the following result: Chief patriarch E. C. Forney, chief priest, C. A. Davis, senior warden, A. Beaudette, senior, V. A. Lavee, representative to the grand encampment, C. C. Hill.

ROSWELL SCHOOLS TO BE HEADED BY WISCONSIN MAN

Roswell, N. M., June 24.—J. W. Riley, of Hayward, Cal., has been chosen as city school superintendent by the board of education. His salary will be \$2400 a year. Mr. Riley will reach here about August 4.

MAY TERM OF COURT CLOSING

The May term of the 21st district court closed this afternoon. Special Judge W. D. Howe was busy throughout the day making final orders. The court will not reopen until early in September.

Sister: Read My Free Offer!

I am a woman.

I know a woman's trick.

I know her need of sympathy and help.

If you, my sister, are unhappy because of ill-health, if you feel unfit for household duties, social pleasures, or daily employment, write and tell me just how you suffer, and ask for my free ten days' trial of a home treatment suited to your needs. Men cannot understand women's sufferings. What we women know from experience, we know better than any man. I want to tell you how to cure yourself at home at a cost of about 12 cents a week.

If you suffer from women's peculiar ailments, catarrh of the bladder, or leucorrhea, or constipation and piles, or hemorrhoids, or extreme nervousness, or depression, or melancholy, or desire to cry, or fear of something evil about to happen, or creeping feeling about the spine, or palpitation, or hot flashes, or weariness, or a cold complexion with dark circles under the eyes, or pain in the left breast, or a general feeling that life is not worth living, I will send all in plain wrappers postpaid. To save time, you can cut out this offer, mark your feelings, and return to me. Send today, as you may not see this offer again. Address: MRS. M. SUMMERS, Box H, SOUTH BEND, IND.

and learn how these ailments can be easily and surely conquered at home without the dangers and expense of an operation. When you are cured, and able to enjoy life again, you can pass the good word along to some other sufferer. My home treatment is for young or old. To Mothers of Daughters, I will explain how to overcome green sickness (chlorosis), irregularities, headaches, and leucorrhea in young women and restore them to plumpness and health. Tell me if you are worried about your daughter. Remember it costs you nothing to give my home treatment a ten days' trial, and does not interfere with daily work. If health is worth asking for, then accept my generous offer and try the free treatment, including my illustrated "Women's Own Medical Advice" book. I will send all in plain wrappers postpaid. To save time, you can cut out this offer, mark your feelings, and return to me. Send today, as you may not see this offer again. Address: MRS. M. SUMMERS, Box H, SOUTH BEND, IND.
